

Anti-c-myc
Store at -20°C

Catalog No. 11216-061 0.5 mg

PRODUCT: Anti-*c-myc*, mouse monoclonal antibody.

CATALOG NO.: 11216-061

SIZE: 0.5 mg

CLONE NO.: 9E10

ISOTYPE: IgG1 kappa

IMMUNOGEN: Human pp62 *c-myc* (408-438) peptide [AEEQKLISEEDLLRKRREQLKHKLEQLRNSC].

SPECIFICITY: Target is *c-myc* epitope EQKLISEEDL. Will not detect normal cellular levels of *cmyc*, only in cells that overexpress the protein.

APPLICATIONS: Western blotting 1 µg/ml, Immunoprecipitation (for epitope tagging only), Immunofluorescence 2 µg/ml.

SUPPLIED AS: Protein A purified IgG1, 0.7 mg/ml in PBS.

STORAGE: -20 or -70°C. After initial defrost, aliquot product into individual tubes and refreeze at -20 or -70°C. Avoid repeated freeze/defrost cycles.
